

An Tairseach

Continuing Professional Development Summer 2017

“Knowing Our Place: From Stardust to Sand”

This course is aimed at -

- providing teachers with the confidence and competence to teach the story of the universe; the effects of global warming and the necessity of environmental awareness and care.
- helping students develop a sense of place through communicative methods; to know their place – from the story of the universe to the local school environment.
- fostering the curiosity of students and developing environmental awareness and care of the environment

The main curriculum areas covered by the course are SESE
(Science & Geography)

Dates: 10th - 15th July 2017

Dominican Farm & Ecology Centre,
